Washington, DC 20554

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

I recently made a 60 cent phone call that cost me an additional \$7.05 plus the call. This was an absolute rip off. God bless AT&T..... I also do not make many long distance calls so I do not have a long distance plan of any kind. Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair! It is up to you to protect all of us.....Do your job!!!!!!!!!!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee. Or how do you sleep at night?

Keep the USF Fair!

Sincerely,

Yvette Strouse
